All students work every class.**

Acting is best learned experienced.

ONGOING CLASSES: Scene Study, Improvisation & Cold Reading

"The first thing that struck me about Kimberly is her incredibly open and approachable personality. She eliminates fear. Within her classroom she creates an atmosphere of collaboration and free-spirited energy. It is an environment of judgment-free discovery."

- **Devon Graye**
(*American Horror Story, Dexter*)

Every actor needs to harness their skill by consistently working out in a scene study and technique class. Scene study affords the actor the opportunity to discover and enhance their strengths while working on their weaknesses.

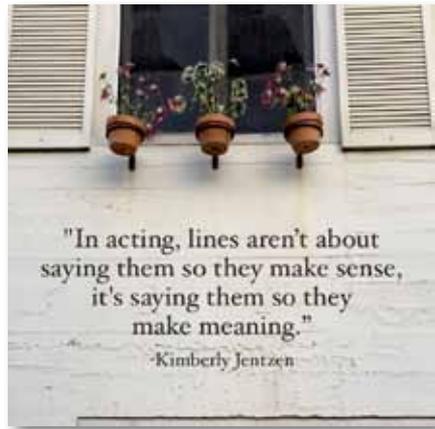

The actor gains character development tools that refine the actor's talent so they can step onto the set or stage with the knowledge and confidence that they are primed to deliver an inspired performance.

Many find that their ongoing scene study class provides a home that keeps the actor prepared, ready and on their game.

Class begins with a warm up and technique. During the warm up actors learn a new tool and harness it through improvisation. After the break, scenes and monologues are performed and individually coached by Kimberly Jentzen. If an actor doesn't have a scene that night, they execute a cold reading and receive audition technique coaching.

Actors are encouraged to bring their auditions and scenes to be worked in class to help prepare for shoots, auditions, chemistry reads, and more.

SCRIPT ANALYSIS/SCRIPT DEVELOPMENT

"Kimberly is inspiring and compassionate in her approach to teaching. This book comes at just the right time for any student who is looking for an insightful and concise manner to the work. This is not your average acting technique book; it is one that asks the student to delve deep and helps to bring out the best of the actor within."

= Joy Tanner

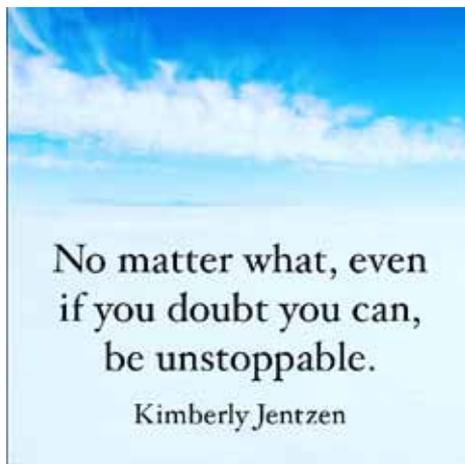

(Degrassi: The Next Generation, Nancy Drew)

Script Analysis provides tools and insights for actors, writers, directors and producers to develop the essential skills for breaking down scripts and insightfully making creative choices based on what is on the page.

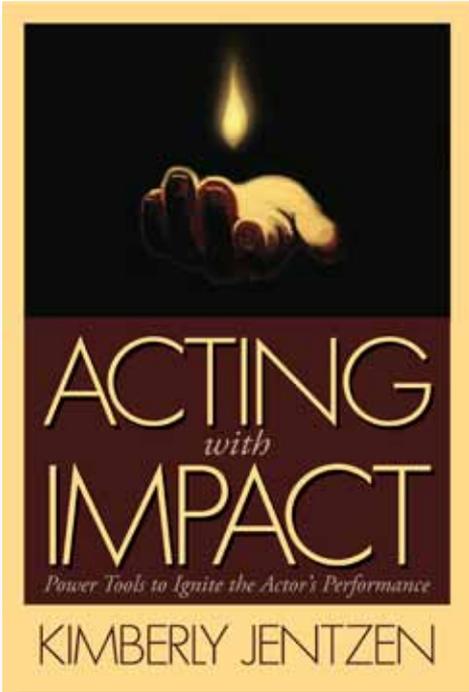

Analyzing great film scripts, TV scripts, plays and pitches, prove to stimulate an understanding with material that will strengthen a skill set that is essential for success. Kimberly has discovered that those who attend this class grow exponentially. They gain understanding of characters, execution of powerful scripts and why they

work, different writing styles, all while breaking down material with an insightful group of industry professionals.

Script Development provides an opportunity for each participant to have their work read and receive feedback from the group. Participants from Kimberly's classes have written material that has gone on to successful theatrical runs, television series, webisodes, shorts, feature films, and more.

THE JENTZEN TECHNIQUE

ACTING WITH IMPACT: THE BOOK

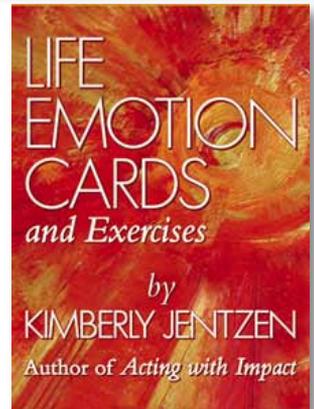

Kimberly Jentzen, creator of **THE JENTZEN TECHNIQUE**, taps into the essence, motivations and needs of authentic characters and cultivates an edge in actors to find their artistic fuel. Her fresh approach dynamically infuses actors with the confidence to access their imagination and act with authentic expression. Jentzen created these nine Power Tools to help actors own a process that is efficient and gets results on the job. Each Power Tool is a finely-tuned, streamlined acting technique designed to tap into the truth and deliver inspired performances.

“As a Casting Director for the past 16 years, I see actors every day and I know how difficult it is to book a job. Kimberly Jentzen’s book, Acting with Impact, will help you get the training and edge you need to be among the very best.”

- Amy Jo Berman, Casting Director (Primary Colors, The Parent Trap)
