

"Twin Twin"

~~w/ my husband~~

Grey's Anatomy - "Raindrops keep falling on my head"

ADDISON

I was just checking to see if Doctor Burke secured the intern--

MEREDITH

(overlaps) The intern you requested? He did.

ADDISON

Define TTTS.

MEREDITH

Twin-twin transfusion syndrome. Conjoined fetal twins.

ADDISON

Connected by?

MEREDITH

Blood vessels in the placenta.

ADDISON

Meaning?

One twin gets too much blood, the other too little endangering the lives of both. I'd expect you to know that, Grey.

JULIE

(overlaps) You told me there wasn't much chance that anything could be done. But-

ADDISON

TTTS is usually impossible to correct. Unless you happen to be one of the handful of surgeons in the world who knows how to separate fetal blood vessels. Which, luckily for you, I am. So we're going to get you into surgery tomorrow. If you have any questions at all, please ask Doctor Grey. From what I have seen, she is one of the hospital's most popular interns.

W-Solo, Addison

1/3

MEREDITH

I could have answered your question if you had given me the chance.

ADDISON

Chin up, Grey. I'm though on everyone, not just the women my husband sleeps with. Order an ultrasound for her.
